

I have lowered the shipping costs to \$7 (**for domestic shipping only**) starting this month. In order to do this, I will be using the flat rate priority boxes for large add-on orders. I will keep abreast of the shipping charges, and we may see another reduction in the future.

June, 2005 Newsletter • Issue Number 14 • www.scrapmuse.com

Hello everyone! Summer is almost here and summer always makes me think of the color green. I figured the timing was perfect as the new KI Memories Pieces of Me Evergreen collection just became available a few weeks ago. This collection of papers just personifies a fun summer style and I ran with it. I was also thinking that since the papers are rather busy and wild with color, this might be a great month to teach about color theory. I know that some of us have issues finding contrasting and complimentary colors and I figured these are the perfect papers to allow us to concentrate on this. So, without further ado...

For me, a landscape does not exist in its own right, since its appearance changes at every moment; but the surrounding atmosphere brings it to life - the light and the air which vary continually. For me, it is only the surrounding atmosphere which gives subjects their true value.
~ Claude Monet

All Around The Color Wheel by Sharly Balcaen

The color wheel is an amazing resource that can help you create harmony, add contrast and make your designs absolutely amazing!! Color wheels are also surprisingly easy to use. They are most helpful when trying to find that perfect color combination for your pages. Most wheels are on a "spinner" allowing you to move the top "wheel" around to find your different color combinations. If you get stuck trying to match colors to a patterned paper or photograph, you can always rely on your trusty wheel!

Terms to know to make your color wheel experience easier:

Hue is another name for color
